REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention. Specifically, the prior art of record fails to disclose a body fluid retaining layer comprising thermoplastic synthetic resin fibers and absorbent material, in combination with a shape holding layer comprising thermoplastic synthetic resin fibers, wherein the layers have a coextensive surface pattern configuration defining barriers and openings, and the layers are hot welded together.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patents 4,780,352 and 5,885,267 both disclose absorbent panels comprising two layers having a coextensive surface pattern configuration, but fails to disclose one of the layers comprising absorbent material mixed with the thermoplastic fibers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to C. Lynne Anderson whose telephone number is (703) 306-5716. The examiner can normally be reached on Monday through Friday.

Art Unit: 3761

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Calvert can be reached on (703) 305-1025. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
